The Leaders in Skin Health Education

Certificate in Basic Clinical and Procedural Skills for Dermatological Nurses

About the Program

This program provides evidence-based, structured education that builds nurse confidence and competence, supports ongoing career progression, and is specifically designed for practical application in dermatology clinics.

It is delivered by the Australasian College of Dermatologists (ACD) / Dermatology Australasia, in collaboration with ADNA.

Start date: August 2026

Who is it for?

- Dermatology nurses (new or experienced)
- Clinics seeking structured nurse training
- Doctors wanting time-efficient nurse education

Why Enrol?

Confidence

Gain confidence through evidence-based, structured education designed for dermatology nursing. The modules strengthen clinical knowledge, support sound decision-making, and translate directly into daily practice.

Efficiency

A standardised education framework that reduces time spent training in clinic. Supports consistent knowledge across nursing teams, clearer competency expectations, and smoother workflows.

Growth

The modules support ongoing professional development, career progression, and helps raise national standards in dermatology nursing.

Pricing, Scholarships & Referral Offers

\$600 for ADNA members (\$1,200 for non-members)

Limited Scholarships

\$600 scholarship for the first five enrolments

Referral Rewards

New members: Refer a nurse within 4 weeks & get \$600 off
Current members: Introduce a nurse who joins & enrolls and get \$600 off

How & when to apply?

If you are interested in applying or you would like more information, enquiries are open from

18 May 2026.
