Beyond the Cosmetic - Re.Think the Standard in Photoageing Care

Join us for an insightful session to:

- Understand the pathophysiology of photoageing and its clinical presentation, including in skin of colour
- Review evidence-based treatment with a focus on topical tretinoin and the effective use of ReTrieve® (tretinoin 0.05%)
- Explore non-invasive management and sun protection to optimise long-term skin health and ageing
- Apply learnings through a practical patient case study, highlighting treatment selection and management considerations

Prof. Greg Goodman, *Dermatologist*

Professor Goodman AM has been a practicing dermatologist for more than 40 years. His specialties include skin cancers, Mohs micrographic surgery, lasers, cosmetic dermatology, and the treatment of acne and post-acne scarring. He holds an Adjunct Professor position at Monash University and University College of London, and previously served as Chief of Surgery at the Skin Health Institute. He is President of the Australasian Society of Cosmetic & Procedural Dermatologists and heads the Australasian College of Dermatologists taskforce in Cosmetic Dermatology higher education. A national trainer for cosmetic agents, he sits on several international editorial boards and advisory committees. He has published extensively on acne, acne scarring, cosmetic enhancements and lasers, with current research focused on skin ageing. A multiple award recipient, he has lectured widely in Australia and overseas, and has designed software applications to assess skin ageing and optimise treatment suggestions.

Dr. Alicia O'Connor, *Dermatologist MBBS, BAPPSC(PHTY), MPH, FACD*

Dr Alicia O'Connor is a Fellow of the Australasian College of Dermatologists. Alicia was accepted onto the Australasian College of Dermatologists training program in 2016. She completed her Dermatology training at Royal Prince Alfred Hospital, Prince of Wales Hospital, Sydney Children's Hospital, Liverpool Hospital, St Vincent's Hospital and The Skin Hospital Darlinghurst. She was awarded the American Academy of Dermatology prize for her outstanding performance in her fellowship exams in 2019. Alicia is adept in medical and surgical dermatology. Her special interests include skin cancer detection and management, eczema, psoriasis and acne. Alicia consults both adult and paediatric patients.

ReTrieve®
(Tretinoin 0.05%)
